

Module Name	Disaster Management
Code, if applicable	GEL 3107
Semester(s) in which the module	Fifth (5 <sup>th</sup> ) Semester
Person responsible for the module	Prof. Dr. Muh Aris Marfai, S.Si., M.Sc.
Lecturer	Prof. Dr. Muh Aris Marfai, S.Si., M.Sc. Dr. Dyah Rahmawati Hizbaron, M.T., M.Sc.
Language	Bahasa Indonesia
Relation to curriculum	Elective
Type of teaching	STAR ( <i>Student Teacher Aesthetic Role-Sharing</i> ) is an optimal combination between SCL ( <i>Student Centered Learning</i> ) and TCL ( <i>Teacher Centered Learning</i> ). Lecture: 1400 minutes
Workload	Lecturer, including homework and discussion = 14 meetings x 100 minutes each Mid Semester Examination: 100 minutes Final Semester Examination: 120 minutes Total workload: 1620 minutes
Credit points	2
Requirements according to the examination regulations	Must attend lecture for more than 70%
Recommended prerequisites	-
Module objectives/intended learning outcomes	Students are able to explain : 1. Understanding of hazards, disasters and risks 2. Characteristics, causes and impact of earthquake 3. Characteristics, causes and impact of volcanic eruption 4. Characteristics, causes and impact of landslide 5. Characteristics, causes and impact of tsunami 6. Characteristics, causes and impact of flood 7. Characteristics, causes and impact of drought 8. Method of Prediction of Hazards 9. Method of Prediction of Vulnerability 10. Method of Prediction of Risk 11. Disaster Preparedness and Mitigation 12. Structural Disaster Mitigation 13. Non Structural Disaster Mitigation 14. Disaster Management in Indonesia
Content	1. Understanding of hazards, disasters and risks 2. Characteristics, causes and impact of earthquake 3. Characteristics, causes and impact of volcanic eruption 4. Characteristics, causes and impact of landslide 5. Characteristics, causes and impact of tsunami 6. Characteristics, causes and impact of flood 7. Characteristics, causes and impact of drought 8. Method of Prediction of Hazards 9. Method of Prediction of Vulnerability 10. Method of Prediction of Risk 11. Disaster Preparedness and Mitigation 12. Structural Disaster Mitigation 13. Non Structural Disaster Mitigation 14. Disaster Management in Indonesia

Study and examination requirements and forms of examination	Quiz (10%), Group or individual assignment (20 %), mid-semester examination (35 %) dan final examination (35 %). Examination is formed in written test.
